

2.3.2 Teachers use ICT enabled tools for effective teaching-learning process.

Response:

In today's world, it is essential for the students to learn and master the latest knowledge, skills and technologies in order to be corporate ready. As a consequence, teachers have been combining technology with traditional mode of instruction to engage students in long term learning. Institute uses Information and Communication Technology (ICT) in education to support, enhance, and optimize the delivery of content to the students. The following tools are used by the teachers -

ICT Tools:

1. Smart Classroom, labs and seminar halls of the institute are enabled with LCD projectors and other gadgets. The college adopts various teaching methods to impart knowledge and skills to the students by the use of ICT enabled teaching; e-learning resources and online classes are promoted by the college in order to make teaching learning more impressive and interesting.

All study material and assignments are sent to the students through the Whatsapp groups and email. Delnet, e-books/e-journals and smart classroom are other ICT facilities employed in the campus.

The language lab is used to train students in English and to access audio material for their communicative skills. The language faculty uses media of instruction such as films and plays based on novels.

Use of ICT by Faculty

Faculties have free access to the internet and the computer labs besides individual desktops to the HODs and faculties with specific task.

Faculties are encouraged to use power-point presentations in their teaching by using LCD projectors. They are also equipped by digital library, online search engines and websites to prepare effective presentations.

Seminar and Conference room are digitally equipped where guest lectures, expert talks and various competitions are regularly organized for students.

Students are counseled with the help of Zoom / Google meet applications.

Recording of video lectures is made available to students for long term learning and future reference.

Various technical events and management events such as Poster making, Project presentations, Business quiz, Debates, paper presentations etc. are being organized with the help of various Information Communication Tools.

Use of various ICT tools for conducting workshops on latest methods such as SPSS, Programming languages, simulations etc.
