## 7. Institutional Values and Best Practices

### 7.3 Institutional Distinctiveness

#### 7.3.1 Portray the performance of the Institution in one area distinctive to its priority and thrust within 1000 words

#### Answer:

The institute takes continuous efforts to reflect its vision, through various activities. The vision of our institute is to impart higher education and to produce technically sound, professionally competent and socially committed individuals imbued with ethical values to serve the society. Our aim is to provide higher education to all classes of the society especially to the downtrodden, economically and socially backward classes of society to make them self-confident and self-reliant.

The students, who come from weaker sections with very low income, and give fee concession to any extent so that they get education with peace of mind. We strive to give quality education and provide better facilities to the students who come from remote villages. To fulfill the need college provides UG (B.com, B.sc.) and professional courses (BBA, BCA, B.Ed. and PG programmes M.Ed. & M.P. Ed.) in different disciplines.

“Planting future” is the Moto of our institute, and for this we provide value-based education, embodying socio-cultural, commercial and physical training in order to achieve all round development of the students personality. ICT based Modern teaching aids are adopted by the entire faculty to make teaching learning more effective and easy, while imparting education, the college makes no distinction of gender, region, religion, cast, creed or class because we believe in the principles of liberty, equality and fraternity which foster human democratic values.

All the college activities are student centric. Institute runs courses. These courses also help the students for their overall development with professional skills like professional ethics and job opportunities soft skill are most essential factors for students to cope up with global competition. These skills are developed in regular class-room. The institute has established finishing school in the campus.

This finishing school has its own & exclusive infra with all GD Room, PI room, Audio-Visual room, dedicated computer Lab and a library with General book, Novels, Magazines, and Auto-biographies. This has created an opportunity for the students from rural background to learn new skills.

Institute give opportunity to the graduate students to take higher education in master's degree in professional courses. After completing thesis courses students placed in various jobs in corporate, government and private sectors, we feel proud that we are successful to bring our vision and mission into reality.

Institute also works for strengthening the climate of inclusivity in college at all levels viz environmental, economic and social inclusivity cultivated in various dimensions.

- Class-room teaching and inclusivity-educators implement evidence based inclusive practices through multilevel instructions, multiple methods of teaching and modified outcomes in general education classroom.
- Mentor-mentee meetings-Mentors are allotted to each student to discuss various problems faced by the students at academic and personal level.
- Teachers conduct extra classes for slow-learning students and give several opportunities to students to appear for their assessment.
- Institute has Research center, rich library with open access via Delnet, and organize workshop conferences, seminars related to research methodology SPSS workshops are organized by the institute.

- There is an international level infrastructure of sports in the campus, and national and international level players produced in different games like hockey, shooting and boxing. The indoor & outdoor playfields are one of the best in any private institute. Promotion of Education for sustainable development is the need of the hour as it empowers people to change the way they think and work towards a sustainable future. In this context Institute involves educating students on the necessity of sustainable development have many resources by which we can cope up with this development by using recycled solid and liquid waste of the campus.
