The group believes in the philosophy of education of the whole person in spirit, mind, body and its collective contribution to society.

About the Conference:

Covid-19 has already been declared as a pandemic by the World Health Organisation which has forced humanity to find alternatives in all spheres of life. The global shutdown affected educational activities in a big way. Fortunately, as a quick response to the crises, the online learning platform came to serve the educational system. Now it is high time to fine-tune this online learning process to maximize the outreach with required results.

This webinar aims to find some replicable and result-oriented process changes in educational activities through online mode.

- The last date of Registration and Abstract Submission is 30th June 2021.
- Papers will be accepted in Hindi/English.
- No Registration Fee.
